The Continental Dialogue's

Firewood Outreach Coordinating Initiative (FOCI)

The FOCI is a venue for all outreach practitioners that address the issue of firewood movement to gather information about past successes, bounce ideas off similar-minded professionals, plan for multi agency or multi state efforts, and promote consistent firewood messaging.

- Open to all practitioners of firewood related outreach
- Quarterly phone calls to allow for discussion and presentations
- Upcoming Materials Library being built to facilitate sharing and improving of outreach; will be housed and maintained by the Don't Move Firewood team.
- · Come to our breakout session tomorrow!

Want to join the FOCI? Email either Debbie Lee at dlee@resolv.org, or Leigh Greenwood at lgreenwood@tnc.org, to join. You'll receive periodic updates and get invited to our quarterly calls.

The FOCI is led by Leigh Greenwood (The Nature Conservancy) and Ann Gibbs (Maine Department of Agriculture).

The primary costs of the FOCI are for the professional facilitation of phone calls, and the creation and maintenance of the database. These costs are paid for through a cooperative agreement between The Nature Conservancy and USDA – APHIS
